

THE “IPS” PROJECT

The IPS Project

**HL7 Int. CEN/TC 251
agreement (April, 2017)**

Vision

- “In order to further the care for citizens across the globe, we agree to **collaborate on a single, common International Patient Summary (IPS)** specification that is readily usable by all clinicians for the (cross-border) unscheduled care of a patient.”

Scope

- “The IPS specification shall focus on a **minimal and non-exhaustive** Patient Summary, which is specialty-agnostic and condition-independent, but still clinically relevant.”
